Art Unit: 3632

This is an office action for serial number 10/769200.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 33-38 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the extension portion having a pivoting handle (in regards to claim 33) and the lateral guides includes a position retainer extending from a position retaining supporting disk (in regards to claim 34), does not reasonably provide enablement for the lateral guide having a pivoting handle (in regards to claim 33) and the pivoting handle includes a position retainer extending from a position retaining supporting disk (in regards to claim 34). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make/use the invention commensurate in scope with these claims.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and

distinctly claim the subject matter which applicant regards as the invention.

Claim 3 is dependent from Claim 3 which is indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. A claim can not depend from itself.
